[You can find them on his YouTube channel here in any of the weekly episode replays.](#)

Dino Jurassic Fact Challenge number 6

The late Jurassic Period is renowned for the emergence of sauropod dinosaurs. They were the classic long-necked and long-tailed dinosaurs, and the largest grew to more than 40 metres in length and probably weighed up to 100 tonnes. Find out about a Jurassic Sauropod and find out about its weight and length. Draw a picture of your discovery.
